*Numbers reflect status of former students at the time the data were gathered in summer/fall 2012. Current employment may now be different.*

**Data include information from:**
- 1997-2001: all graduates (18)
- 2002-06: 51 of 56 graduates
- 2007-2011: 88 of 99 graduates

**Definitions**
- Academic: academic research and teaching appointments, including tenure-track and non-tenure track
- Industry: research in an industrial, for-profit setting
- Gov’t: research in government agencies (e.g. NIH, NSF, etc.)
- Sci-Rel: related to science, but not traditional research, e.g. science policy, scientific patent attorney, science writer
- Non-Sci: careers unrelated to science
- Postdoc: in a postdoctoral research position at time surveyed
- Clinical: employed in a medical career field, i.e. in clinical practice (presumes professional degree was also obtained)
- Med Std: a medical student or resident
